

R-SCIF OVERVIEW

Redeployable SCIF

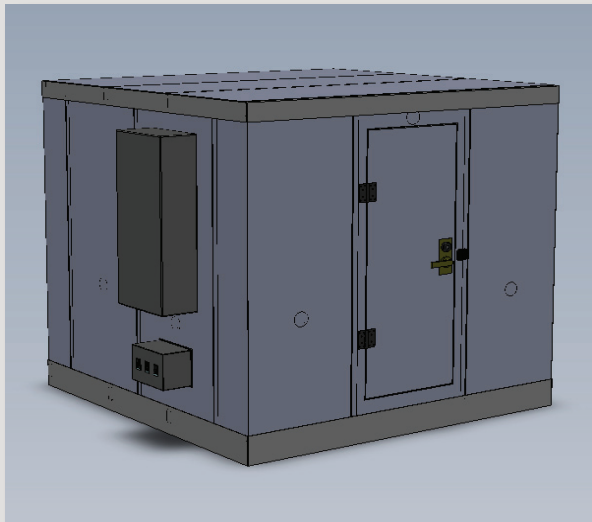

The R-SCIF (Redeployable Sensitive Compartmented Information Facility) incorporates leading edge physical and technical features to create one of the most innovative and advanced SCIFs available today.

Our new standard modular panel is 4" thick and can range from 24" to 36" wide using electro-galvanized steel (G90, 22 ga. to 14 ga.) to create Sound Transmission Class Loss Ratings from STC 45 to STC 50 and Sound Absorption Ratings to NRC 1.05.

With varying panel widths we can easily create custom, redeployable secure rooms than can be assembled and disassembled by our trained installers.

The roll-formed, interlocking tongue and groove panel design create modular walls that are interchangeable to provide for the greatest design flexibility. The panels include welded AMICO ASM .75 9F Gauge Expanded Steel Security Mesh.

The tamper evident construction precludes external disassembly. This is turnkey SCIF that can be assembled, taken apart and reused to create an economical long-term solution.

LED Lighting

High Security Contact & Closure

Features

- 8' x 12' Standard Enclosure. Optional sizes from 4' x 8' to 12' x 24"
- STC 40-45 Rated Enclosure with UL-2050 Certified Alarm System and Pneumatic Door Closer
- Pre-Wired Electric Power (110 & 220 VAC, 200 AMP)
- CD-X09 High Security Lock & LKM 7000 Single Motion Exit and HID Access Control Keypad
- 60 dB TEMPEST Door, DUCT Screen, and RFI Paint and Embedded Sound Masking System
- Designed to Exceed DCID 6/9 and ICS 705-1)
- AMICO ASM .75 9F Gauge Security Mesh Barrier
- Tamper Evident Door, Walls, Floor and Ceiling assembles in only 1-2 days
- No Holes – Single Sided PEM Capture Bolt Mechanism
- Dark Grey Ext/Light Grey Int/White Underside (opt colors) with Interlocking Tile Carpet
- Common Point of Entry Enclosure – Power, Data & Communications Patch Panels (Single/Multi Mode Fiber, CAT-5e, Analog Telephone, Cable Pass-thru)
- Silenced Ventilation Ducts with Interior Upper Ceiling-mounted HVAC System & Interior LED Natural Light
